The convention calls for frequency lists to show four digits following decimal point, followed by either "N" or "W', depending on whether the frequency is narrow or wide band. Mode refers to either "A" or "D" indicating analog or digital or "M" indicating mixed mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeater stations must be programmed with Rx and TX reverseed. to either "A" or "D" indicating analog or digital or "M" indicating mixed mode. All channels are shown as if programmed in a control station, mobile or portable radio. Repeater stations must be programmed with Rx and TX reverseed.
